Description

Body warmers use high-purity iron powder and high-quality non-woven fabric as material. So, it has high temperature, can heat fast and lasting warmth for 10 hours. The glue on the back can effectively prevent slipping and will not damage the clothes.

The body warmer is suitable for all parts.

We are a top warm patches manufacturer that creates quality body warmers for small brands and big brands. Browse a great collection of warm patches and custom your own brands warm pads.
