Description

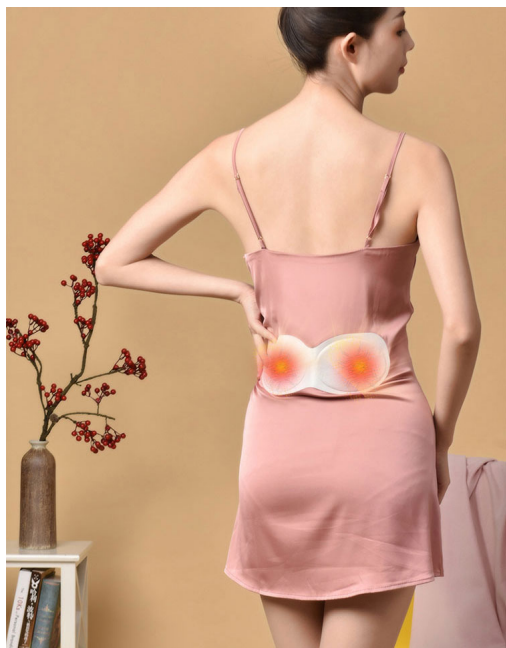

Waist warming patch is an ideal product for pregnant women, the elderly and women who suffer from waist injury and cold waist. It also has a certain effect on back pain, back pain, lumbar muscle strain, rheumatism, sprains, strain and muscle tension. Give your tight waist a warm spa.

Back warmers can relieve waist pain and prevent frostbite when going out in the cold winter. It has a good anti-cold and warm effect, is convenient to carry, and has long-lasting and stable fever. It can be warmed all day by just sticking one piece a day. Open the vacuum packaging of the warm paste, remove the backing paper, and stick it on the outer side of the waist garment, do not directly touch the skin, just spread it with your hands.

Maxwarm is one of the leading back warmers factories based on products. We can help you to custom package and improve your business.
