## Description

First-class safety and body warmer, suitable for people of all ages, mainly used in cold seasons or cold areas, rain and snow, wet weather, outdoor and field work activities; also very suitable for the elderly, children and other people who are afraid of the cold to keep warm.

The body warmer adopts the breathable film imported from Japan and the imported automatic water heating patch production line, which generates uniform, stable and reliable heat patches. The built-in infrared monitoring system of the machine will automatically spit out unqualified products before the next work continues to ensure that every product that leaves the factory is qualified.

Maxwarm is one of the leading heat patch manufacturer in China based on production. The factory is well known for its production of body warmer.
