Description

How to use body warmers?

Open the sealed bag, take out the warm palace patch, tear off the release paper, and stick it on the 3 inches below the umbilical cord. Do not apply directly to the skin.

Body warmer application:

It is suitable for the adjuvant treatment of women with dysmenorrhea, irregular menstruation and various postpartum pains.

It is suitable for cold palace, stomach cold and stomachache and various pains caused by wind cold.

It is suitable for women's ovarian maintenance and health care, prevents the occurrence of gynecological diseases, and delays the appearance of menopause.

Custom menstrual pain patch design and manufacturing services from Maxwarm allow warmer pads distributors to create their own unique warm patches.

Cautions:

- ?Use with caution in pregnant women, diabetes and those with blood circulation disorders;
- ?Please store in a dry and cool place to avoid being pierced by hard objects.
- ?Do not place it in a place where children can easily reach it to avoid accidental ingestion.
